

Clamp Meter

Hioki 3280-70F

Hioki 3280-70F clamp meter that measures AC current up to 1000A, AC voltage up to 600V, and resistance up to 4000Ω. It is designed for use in various electrical applications, such as in power distribution systems, building maintenance, and industrial facilities.

Applications: Power Distribution Systems, Building Maintenance, Industrial Facilities, Automotive Industry.

Hioki 3280-70F clamp Meter is its large, easy-to-read display, which shows both the measurement value and the measurement units. This clamp meter is design to allows for non-contact measurement, which is particularly useful in situations where it is difficult or unsafe to make direct contact with live wires.

Features of Hioki AC Clamp Meter

- Auto-ranging function for easy and accurate measurement
- Data hold function to freeze the measurement value on the display
- Continuity check function with audible buzzer for quick and easy circuit testing
- Low battery indicator to alert the user when the battery needs to be replaced
- Auto power off function to conserve battery life

Manufacturer	Hioki
Model No	3280-70F
Measuring Parameters	AC Current, AC Voltage, Resistance, Continuity
AC Current	1000A
AC Voltage	600V
DC Voltage	600V
Resistance	42.00MΩ
Dimension	85W×227H×55D mm
Weight	0.365 kg

Temp | Humidity | Pressure | Differential Pressure | Vacuum | Gases | Particle | Air Flow
Moisture | Dissolved Oxygen | Radiation | Air Quality | Light / Lux | Distance | Vibration
