

# High Voltage Detector

## Hioki 3481-20

Hioki 3481-20 High Voltage Detector has a compact and lightweight design, making it easy to carry and use in the field. The device is equipped with a bright LED light and a loud buzzer, which alert the user when voltage is detected, ensuring safe and efficient operation.

**Applications:** *Testing electronic components, Circuit fault finding, Material testing, etc.*

*Hioki 3481-20 High Voltage Detector is a highly reliable and accurate instrument designed for use in detecting and measuring AC and DC voltages up to 600V. This Voltage Detector is ideal for use in a variety of industries, including electrical, mechanical, and maintenance.*

### Feature

- Safe, compact voltage detection with CAT IV (600 V) capability
- Light designed to facilitate use in dim locations
- Functionality for adjusting sensitivity based on the operating environment

Manufacturer	Hioki
Model No	3481-20
Measuring Parameters	Voltage
Voltage Range	40 V to 600 V AC
Frequency	50 Hz/ 60 Hz
Pilot light	Red LED lights up and the buzzer sounds when the wire is live
Auto Power Off	The power will be turned off automatically if the instrument remains idle for 3 minutes after the power is turned on.
Power Supply	LR44 button alkaline batteries ×3, Continuous use of 5 hr
Supply Scope	Instruction manual ×1, LR44 button alkaline batteries ×3 (for trial purposes only)
Dimensions	20 mm (0.79 in)W× 126 mm (4.96 in)H x 15 mm (0.59 in)D
Weight	30g

Temp | Humidity | Pressure | Differential Pressure | Vacuum | Gases | Particle | Air Flow  
Moisture | Dissolved Oxygen | Radiation | Air Quality | Light / Lux | Distance | Vibration
